20-YEAR UTILITY COST

\$99,198

If Penny stays on current rate

ESTIMATED SOLAR PAYMENTS

\$39,600

Fixed rate — 20 years

ESTIMATED NET SAVINGS

~\$55K – \$65K

Typical Arizona range over 20 yrs

THIS REPORT IS PRELIMINARY — A SPECIALIST VISIT IS REQUIRED FOR PRECISE NUMBERS

The projections above are based on publicly available your local electric company rate data and regional solar averages for Arizona. Every home is unique. Roof orientation, shading, structural condition, HOA rules, and your specific rate plan all affect your real savings. The solar payment shown is a regional estimate — actual figures depend on your system size and Needs. Savings shown (~\$55K – \$65K) reflect typical Valley outcomes and bracket our modeled difference.
